Hi! My name is Izzy. Since 2017 I have lived and worked on the beautiful Isle of Skye. It was here that Scribe & Grow and Skye Natural Skincare was founded.

Scribe and Grow Ltd started with fun and thoughtful greeting cards that you can plant after use, made from pre-consumer, recycled cotton, packed full of bee-friendly flower seeds.

Skye Natural Skincare started its journey shortly after when an idea to use Skye sea salt in a beauty product sprung to mind, allowing those who don't live on Skye to embrace the magical, pure waters of the island.

Evolving daily the company is now working on new beauty products such as face masks & scrubs; while also working with other small makers on the island to produce sustainable gifts, including products made from recycled denim! This is not only a nice income for small makers, but it gives the customer a totally unique product made here in Scotland.

Britney the caravan, located in Breakish is used as a pop up shop, to showcase all these wonderful products!

“THIS IS JUST THE START OF OUR ENTREPRENEURIAL JOURNEY. CARDS, GIFTS, BATH SALTS – ANYTHING COULD BE NEXT!!

“THIS IS HOW MY BRAIN SEEMS TO WORK,” SAYS IZZY. “I SEE AN OPPORTUNITY AND THINK, ‘WHY IS NOBODY DOING THIS?’”

OUR SOAKING SALTS ARE MADE ON THE ISLE OF SKYE BY SCRIBE & GROW, USING SEA SALT HARVESTED BY THE ISLE OF SKYE SEA SALT COMPANY. NOT ONLY ARE BATH SALTS A NICE WAY TO PAMPER YOURSELF; BUT ADDING SEA SALT TO YOUR BATH IS BENEFICIAL TO YOUR SKIN, MUSCLES, AND JOINTS.

A BLEND OF EPSOM SALT, ISLE OF SKYE SEA SALT & ESSENTIAL OILS MAKE THIS A LUXURY PRODUCT, WITH ONLY THE FINEST INGREDIENTS ADDED.
